

2026 Supplier Conference

Building a Sustainable Supply Chain, Creating a Net-Zero Future Together

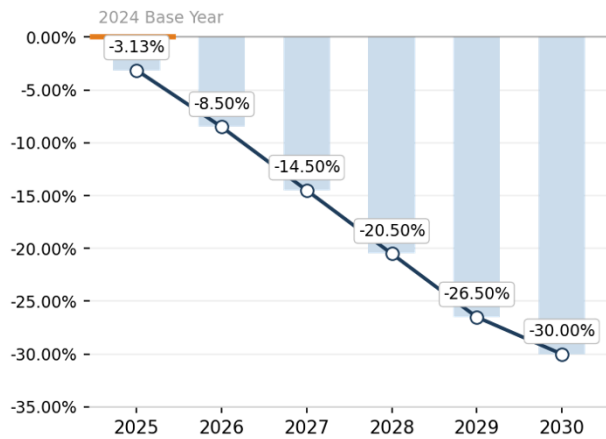

Alpha Networks continues to deepen its shared value chain. On June 23, the company held its annual Supplier Conference under the theme “Hand in Hand for Sustainability, Together Toward Net Zero,” working with supply chain partners to advance environmental sustainability and fulfill corporate social responsibility.

Four Pillars of Communication

- Communicating Alpha Networks' goal to cut supply chain carbon emissions 30% by 2030
- Rolling out a digital carbon management platform, giving suppliers digital tools to manage their carbon emissions
- Sharing Alpha Networks' energy-saving and carbon-reduction measures to help suppliers lower their Scope 1 and Scope 2 emissions
- Advancing human rights and improving labor conditions and workplace environments, in line with RBA standards, to strengthen supplier corporate social responsibility

Supplier Carbon Reduction Project

Reducing Carbon Together With Suppliers

Goal

30% supply chain carbon reduction by 2030, using 2024 as the base year

Target Scope

Scope 1 and Scope 2 emissions
